DIGITAL PHOTO WEEKEND

The digital photo weekend is designed for amateur photographers of all abilities and experience levels. With the help of our guest instructors, you will learn all you need to know about basic camera functions and operations. You will also learn about composition and have the opportunity to talk about images from famous Colorado photographers, such as John Fielder. You will leave the weekend with new techniques and memory cards filled with images collected during the height of the fall colors. Plan on bringing your own point-and-shoot or SLR digital camera.

GUEST PRESENTERS

Scott and Ruth Sprain are members of Zion Lutheran Church, Loveland, CO. Both recently retired, Scott taught Photography at Thompson Valley High School. Ruth was a literacy profession and development coach for the Thompson School District. They both enjoy traveling (with their cameras in hand).

Karin Johnson is a freelance photographer who specializes in wedding, children, and family lifestyle photography. As a graduate of the Rocky Mountain School of Photography in Missoula, MT, Johnson understands the technical and artistic components necessary to produce high-quality images.

Camera Instruction

Spend time in a classroom setting learning how a camera works and when to use various settings.

Computer Editing

Bring your own computer and photo editing software. Instructors will help guide you through basic editing techniques.

Photographer's Playground

Enjoy ample time to wonder around the Sky Ranch property at the peak of the fall colors. A great chance to practice getting the best shot!

Final Slideshow

At the end of the weekend we will share a slideshow of all the participant's best photos.
